

Modul VIS-All® Texturen 1

Teil 1

Modulbeschreibung:

Der Katalog „Texturen 1“ enthält verschiedene Texturen, die zur Bearbeitung von 3D-Szenen oder auch für 2D- Arbeiten nutzbar sind.

In Summe sind ca. 200 Texturen aus den Gebieten Gebäude, Dächer, Innen- und Außenbereich sowie ca. 100 in der Natur vorkommende Texturen.

Die meisten Texturen enthalten zusätzlich Bump-Mapping-Dateien, mit denen sich verbesserte Tiefendarstellungen je nach Software-System realisieren lassen.

Die Texturen sind weiterhin so aufbereitet, dass sie nahtlos aneinanderreihbar sind. Das ist vor allem bei Fassaden, Plätzen und Straßen sehr wichtig.

Aufgrund der großen Anzahl der Bilder wird die PDF in 2 Teilen ausgeliefert.
